

Dear Parents

With the summer break right around the corner I am sure you are all looking forward to some rest and relaxation with the family. For some of you this may involve holidaying near the ocean, river or swimming pool. One of the most important safety skills we must ensure our children have, is the ability to swim. Australia is surrounded by water and the availability of water sports is very enticing for teenagers. It is very important that our children are equipped with this very important life skill long before their teen years. I have included below some tips regarding swimming, from champion swimming coach Mr Laurie Lawrence. From all accounts, for swimming instruction to be the most effective, it must be continual and slow. Short bursts of swimming instruction are nowhere near as effective as those undertaken at a very early age on a weekly basis. Mr Lawrence's main message, especially for parents that cannot afford swimming lessons is that, "children can learn great swimming and water safety skills through regular play and exploration under adult supervision".

### Tip 1. Exposure is the key

Children with home pools usually turn into the best little swimmers. Why? Because they are in the pool every day. Laurie suggests taking your child at least twice a week for a swim. He said "kids going regularly for a play will even have an advantage over kids who only have one swimming lesson a week"

### Tip 2: Master independent floating

Laurie believes "floating is the basis of all learn to swim". He encourages parents to make independent floating on the front and back the first priority. He recommends parents avoid "floaties" and teach natural buoyancy and a feel of the water. Laurie said "children who can float learn to move efficiently through the water rather than thrashing and struggling to keep themselves afloat". Kickboards can be used for balance in the early learning stages.

### Tip 3. Encourage independence

While Laurie insists supervision at arms length is vital, he believes that independence is the key to build great swimming skills. For this reason he encourages parents to wear a t shirt and not to over handle their children in the pool. Laurie said "stay low in the water and let children grip you, teach them to recover independently instead of picking them up after swims". Laurie suggests playing in shallow water, monkey hands around pool edges and climbing out of the pool to build independence. He said "building independence will teach children their limitations, boundaries and a respect for the water".

### Tip 4. Build skills slowly

According to Laurie learning to swim properly will take years to accomplish. Laurie said "people try to rush and put too many skills together at the same time". He explains that you should build one skill at a time and follow the learning progressions of water familiarisation, breath control, submersion, floating, kicking, paddling and breathing. Laurie said "water safety skills should underpin the entire learn to swim process".

### Tip 5. Swimming must be fun

Don't forget to have fun, fun, fun! Laurie believes that being in the water with your child is perfect for bonding and giving them your undivided attention. Laurie recommends parents model safe swimming behaviours and teaching children to read and follow pool rules.

While the swimming pool is the greatest hazard, Laurie stresses that children must learn about water safety in all environments. With the support of the Australian Government, Laurie has produced a water safety DVD, music CD and 4 books to help teach children safety messages in a fun way. This pack has been delivered free to every early learning centre and swim school in Australia by Australia Post. Parents can also access these materials for free at the following link <http://kidsalive.com.au/early-childhood-program/>. Laurie also has a [Facebook page](#) and [YouTube channel](#) where he regular shares tips on how to teach swimming and water safety.

*Parramatta and Holroyd areas have many swim schools that can offer swimming lessons for the children.*

*The school is not in the position to recommend any individual swim school and parents are advised to research eg through recommendation from other parents, the best swim school for their children. Perhaps Santa can gift your child with swimming lessons for 2017. It is a gift your children would be grateful for forever.*

God bless you and your families

Our last trading day for this year will be Saturday, 24<sup>th</sup> December (9am – 4pm) and we will re-open on Thursday, 5<sup>th</sup> January (9am-5:30pm). I strongly recommend parents purchase their uniform early January to avoid lengthy queues.

## St Vincent de Paul Christmas Appeal

At this time of year it is so easy to become caught up in the commercialism and partying of the Christmas season. Our Graduation and Thanksgiving Masses, Christmas Concert and St Vincent de Paul Christmas Appeal remind us that Christ is at the heart of all we do and that by reaching out to others we are living our Baptismal promises.

A **heartfelt thank you** for your overwhelming response to the *Vinnies Christmas Hamper Appeal*. Classes are groaning under the weight of the goodies that have been donated. There will be many families enjoying extra Christmas cheer this year because of your generosity.

In addition to the hampers, the Parramatta branch of Vinnies will be presented with a cheque for \$1275.00 which has come from the sale of ice blocks.

Thank you for your support of this fund raiser which will help needy families with school requirements in the new year.

We would not have been able to sell the ice blocks without the support of a willing band of ladies and school leaders who dealt with the hordes of customers so ably. Thank you for the gift of your time.

### Catholic Mission: Mission Month Ice Block Fundraiser

Over \$900 was raised for Catholic Mission in the first half of the term. Well done and thanks again to all those who contributed to this cause by selling the ice blocks and to those who bought them!

God bless you in all the good works you do.

Jude Kerr Religious Education Coordinator

### Medical Updates for 2017

As we are nearing the end of the school year a reminder to parents with children who have a medical condition ie Anaphylaxis, Asthma that we require an updated plan before the new school year. The plan is to be dated by the doctor with the new date (not just a copy of last year's). This is an annual requirement.

**Congratulations** to Luke Maroun who was awarded the Parramatta Diocesan Primary Sport Award 2016 for excellence in the Athletics Team, Rugby Union Team and Touch Football Teams last night. Well done Luke !!!

Thank you to all the members of the choir who came to spread their Christmas spirit and joy at the St Patrick's Cathedral Christmas Carols.

### Not Returning to St Patrick's in 2017

Thank you to the parents who have informed the office that their child will not be returning to St Patrick's in 2017. If your child is not returning to St Patrick's in 2017 please send a letter to Ms Fabri stating the last day of attendance at St Patrick's and which school they will be moving onto in 2017.

### Condolences

We wish to extend our deepest sympathy to the Volante Family (Sienna 4B, Biaggio 2M & Gabriella KM) on the passing of their great grandmother. Please keep the family in your prayers.
