

Year 5

Maths: Friday 22/10/21

Volume = length x width x height

cubic centimetres (cm³)

1. Calculate the missing values

Length	Width	Height	Volume
9 cm	2 cm	5 cm	
6 cm	3 cm		72 cm ³
12 m	5 m	2 m	
7 m		20 m	840 m ³
	9 m	3 m	270 m ³

2. If each side of the cube is 1 cm, what is the volume of this structure? Show your workings.
